SUMMARY

Flutter Developer with hands-on experience building cross-platform mobile applications using Flutter, Dart, Firebase, REST APIs, and state management (BLoC, Cubit, Provider). Strong focus on UI/UX, app performance optimization, and scalable architecture.

EDUCATION

B.Tech in Computer Science and Engineering 2022–2026

Vimal Jyothi Engineering College

CGPA: 7.5/10

Senior Secondary (XII) 2022

Sacred Heart HSS Payyavoor

Percentage: 90.79%

EXPERIENCE

Mobile App Developer Intern — TATOS Technologies Pvt Ltd 3 Months

- Developed mobile applications using Flutter, Firebase, and clean UI components.
- Improved UI consistency and performance by optimizing widget structures.
- Integrated Firebase Authentication, Cloud Firestore, and push notifications.
- Applied BLoC, Cubit, and Provider for scalable state management.
- Collaborated using Agile-based workflows and sprint planning.

Intern — TECHMAGHI 15 Days

- Built a movie recommender system using Python and ipywidgets.
- Applied data preprocessing and analytics techniques.
- Explored ML concepts and built small automation scripts.

PROJECTS

Ride Sharing Application (Flutter + Firebase)

- Developed a real-time ride-sharing platform for booking and offering rides.
- Implemented Firebase Authentication, role-based access, and trip posting.
- Added live ride tracking using Firestore and optimized UI components.
- Ensured secure cloud storage and smooth user interaction with performance tuning.

Fitness Tracking App (Flutter + BLoC/Cubit)

- Built a modular fitness tracker with workout logging and daily goal tracking.
- Used BLoC/Cubit state management for predictable and scalable architecture.
- Designed an analytics dashboard with charts and statistics for user insights.
- Implemented clean UI and responsive layout for seamless usability.

Movie Recommendation System (Python)

- Created a recommendation engine using cosine similarity and ML preprocessing.
- Processed user-rating datasets to generate personalized movie suggestions.
- Enhanced accuracy through optimized vectorization and data cleaning techniques.
- Built a interactive interface using Python tools for easy result visualization.

Tantra 2025 Techfest Website (Flask)

- Developed a complete website for my college tech fest “Tantra 2025.”
- Enabled student registration, event browsing, workshops, and schedule viewing.
- Integrated Firebase for secure authentication and cloud data management.
- Designed a fully responsive UI to support heavy traffic during fest days.

SKILLS

Languages: Dart, Python, JavaScript, Java, C, HTML/CSS

Mobile Development: Flutter, BLoC, Cubit, Provider, Widgets, Navigation

Backend/Cloud: Firebase Auth, Firestore, Realtime Database, REST APIs

Tools: Git, GitHub, VS Code, Android Studio

Core Skills: UI/UX, App Architecture, Debugging, Agile Basics

LANGUAGES

English, Malayalam, Hindi
